Having looked at the amended plans, i still feel that changing the roof to a pitched style to accomadate a large dormer window will impact on the style of the building and totally change its appearance which will be out of keeping with all the surrounding properties and especially the attached property which retains its original roof style, as the other part of the building is not currently occupied they wont be able to comment on the application. I also have concerns on the impact of the privacy for the facing properties, mine included and the impact on the loss of natural light changing the form of the building will make.
