Hi

I am believing this is relating to a TPO tree and I have copied that department
Your tree surgeon should know the process and likely will still need to submit a 5 day notice but
they can advise better.

Thanks

Robert Peaker

Further to my telephone conversation with Kirklees this afternoon, please find attached the
report from a tree surgeon who has been to look at the horse chestnut tree on our boundary.

We are advised that the tree is unstable and would like someone to advise us as soon as possible
regarding what our next steps should be.

Many thanks
Sarah Turvey
