I feel this application represents good planning and is designed to be in keeping with the area. The development shows the use of quality materials and will addresses the issue with a lack of drainage for water run off. I feel it will be in keeping as it is a similar style to the development at upper bagden farm just over 1km away. As long as the design of the houses are considerate to the close proximity of surrounding buildings this i feel would give a real increase in the natural environment of the area.
