<p>My self and my family have been here many years. My self snd my wife have lived at for thirty years.</p> <p>My late grandfather would be turning in his grave to see what has done. His late wishes was for the farm to stay as farming but has destroyed those wishes.</p> <p>The houses that have been put in for planning will impact our view as well as our privacy the level of noise disturbance already is beyond a joke. The impact on the birds what live in the barns and they have already had too move because of them taking the roof off the barn they lived in on the front. It's bad enough being looked on too by the Barn being currents build. But the privacy and not being looked on too. This application should not go a head there's already the barn on the main road being built and planning for another one as well as the barn at the back.</p> <p>It's spoiling the neighbours as there are a lot of houses being currently build in Denby dale. You refused our planning to add a second floor so we could adapt our house for as we need but we was not aloud but the amount of people who have more than maximise there house like the house at the junction of Miller hill. The developers only care about the money not the environment or the impact of people houses and there privacy or lighting.</p>
