An objection

Your views:

We feel that "Hooley house" should not be granted permission for an outside seating area as the noise disturbance to residents will be intolerable. There are young children on the road and singing and chatting outside later in the evening will be extremely disruptive. An outside seating area will make residents in extreme proximity to the building feel uncomfortable outside of their own properties. Not only will the seating area be unsightly and look out of place within its surroundings it will also lead to yet more parking issues as the proposed decked area will cover the property's driveway forcing people to park elsewhere. We also feel that if this area was passed it would lead to people gathering in groups while waiting for taxis, making phone calls or just standing outside to smoke causing further disturbance. We feel extremely concerned about this proposal and hope that all residents are taken into consideration.
