REF N°

2021 93444

Dear Sir

I am writing to voice
my objections regarding the
new build extension to the
Rear of Newlands Hall Care Home

1/ I am concerned as to how
close the build will be to
our block of Flats, we may
loose our privacy. no 6. 7. 13. 14

2/ there is only one entrance to
the Rear of Newlands Home

and it is very narrow and tight

3/ large building tracks and diggers may have difficulty getting round, plus stopping any emergency ambulances which may have to get to the back quickly

4/ I was always led to believe the the Council was against removing any large trees & shrubs also where all the birds, Foxs, squirrels, Hedgeogs and any other wild life, that lives there these may never come back.

5/ a lot of the residents have medical issues, how will the cope with the noise, dirt and any thing else what goes

with building they will be very stressed

6/

We all bought our Flats for peace and quiet in our Later Life not to listen to drilling digging, shouting etc

7/

Delivery vans taking groceries to the Home will have difficulty.

8/

The new build will be very close to the Housing Association Flats at the side

Please withhold my name & Address
