

About the application

Application number: 2021/93565	
What is the application for?:	Removal of condition 5 (Construction Method Statement) on previous permission 20
Address of the site or building:	Land Adjacent, Hazeldene House, Stoney Bank Lane, Thongsbridge, Holmfirth, HD9 7LZ
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>The AMS attached to the application does not represent the access route that has been applied for. There is no information available in relation to how the tree and the roots at the entrance to the site will be protected from the heavy traffic proposed to use this access. The contractor has already installed a crushed gravel layer and a tarmacked surface which hasn't been approved, this could have already had a detrimental impact on the tree roots.</p> <p>The siting of the welfare cabin, office and especially toilets is not appropriate and consideration needs to be had for the neighbour. There are other locations on site where these can be sited. The toilets will certainly give off unpleasant smells and therefore should be away from neighbouring properties.</p> <p>Cleaning the main road by jet wash and spade seems impractical and a specialist road cleaner should be employed as did Redrow construction.</p> <p>There are significant excavations of bedrock required for the house and the noise levels will be significant and over a long duration. Can this be reviewed and how this can be minimised as they are not un-notable as described. Working hours should be restricted to exclude weekends for the excavation works of this nature.</p>
