Subject: Planning 2021/62/93567/E

Morning i know these often are a waste of time but i would like to protest about the above planning.

You have all protested about Amazon under the grounds of noise levels, light levels and impact on the environment.

But yet again you wish to build more house even though there are many more houses being built within 1 mile of this site.

Do you not think another 194 houses are not going to impact on the local amenities.

Let me break it down possible another 400 people impacting on the area another possible 200 cars choking our local roads, another possible 200 children impacting on our local schools. Plus the impact on local doctors and dentists to which i have not been able to get an appointment since march 2019. If you think that not a lot just walk up South Parade at school times, locals dare not come home between the hours of 8,30/9.30 or 14.30/15.30 as there is no way you can park close to your own house. Plus the local shops are declining because you are allowing local shops to set up behind their own houses and taken another local shop off the high street.

Why not practise what you preach and do something for the environment develop the site and plant some trees to help the environment trees soak up Co2 and also give live to wildlife, turn the area into an urban park or just a little forest ACTUALLY bring some green to the area instead of doom and gloom for the already over populated area.

Local Resident

149 South Parade, who still has not got the speed bumps to calm South Parade
