<p>I would like to comment on the trees that border the site on the Quarry Road side. There are currently a number of trees that have been allowed to grow dangerously tall and are a concern to local residents. Not only are they an annoyance with regards to the fact that they block the sunlight from the back of our properties, they also pose a risk due to their proximity. Any strong winds currently leave us with a great deal of debris, leaves, branches etc and anything larger could cause real damage to properties, fences and outbuildings.</p> <p>It is my understanding that the trees were never supposed to be allowed to grow above a certain height but this has clearly been disregarded.</p> <p>The plans show that some of the smaller trees are to be retained which is perfectly acceptable but the large trees need to be either chopped right back or removed asap.</p>
