As a property developer/investor/ landlord i am very impressed to see this land being used for development. I have seen it sat for many year empty. people fly tipping on it, and it makes the area look run down. i support 100% with this development to go ahead and make Deighton a nice and safer place to live. i don't see this affecting people as my property is fine and my tenants iv spoke with are fine with it., i do see there are houses on rear but its there bathroom windows only there living space is on the other side. they may windge about parking as they park illegally its private land since a new developer bought it in auction, however i do feel they still will be able to use there walking access either entrances. i wish who ever the project belongs to the very best and good luck .
