<p>As you are no doubt aware that the building work has already started before the so called planning permission has been granted. The works canteen has already been erected at the end of our road (You couldn't write it). The builders were challenged and just smirked when telling us that the planning permission was already sorted</p> <p>They have already destroyed trees and copses in the area which is a habitat for an abundance of wildlife such as deer's and other species.</p> <p>Have you tried to get a doctors appointment in our area? It is almost impossible and not just due to the pandemic. I did mention to the doctors about the planning and they just sighed as they are overwhelmed before the new houses are erected.</p> <p>The traffic situation on the graceful roads is already at breaking point and nothing short of dangerous and so another 20 plus cars will bring the area to its knees and anybody who thinks that the planning is a good idea should hang their heads in shame.</p> <p>There are serious safety issues due to the fact that the general infrastructure in the area cannot cope with the added demands of 10 new houses and all that comes with those houses.</p> <p>The very fact that building work has already started is nothing short of laughable and I wonder if anyone from the planning department will have the balls to attend and instruct the builders to stop what they are doing and take away the canteen which is literally obstructing the end of the road.</p> <p>My previous occupation makes me very street wise and I know exactly what is going on and I will not let the matter rest.</p> <p>What is happening is openly illegal and should not be allowed and can be stopped by you people and should be,</p>
