The pond was destroyed, including the newts' habitat. The bats were affected. I haven't seen any bats since the trees were cleared last year.2. The contractors have returned this year. All the tree remains have been shredded to pulp. The vast majority of trees were established trees. The site is prepped for development before the plans are passed.3. These are not the actions of a considerate developer.4. The access off Fullwood Drive onto Victoria Lane offers very poor visibility. It's dangerous.5. There are bats in the field. There are newts there too. These should be protected. Not destroyed.6. The local services are strained. The schools are full. The doctor's surgeries are full. The developer should invest in our local services. <p>Please do not publish my address.</p>
