<p>This will largely impact a highly active bird population, along with all of the other insects and nature that currently live within the area for building upon</p> <p>Our privacy will be largely impacted, along with noise added (also impacting nature)</p> <p>Im interested to understand where children will attended school from any of the new houses?</p> <p>Within a conservation area, if these houses are allowed, there will far l less old houses than there are new</p> <p>The roads leading to and from these houses are not fit for heavy use, and l'm sure it will create more traffic on Clay well / small lane - which is very narrow and potentially dangerous with more traffic</p>
