<p>17th October</p> <p>Application number 2021/93621</p> <p>I would like to object to the planning application above.</p> <p>Safety and Traffic - not withstanding the loss of parking spaces, the high volume of car traffic that will come from this development will impact a peaceful considerate cul de sac and the safety of the children that play happily outside their houses and on the street - parents knowing they are safe as there's no through road.</p> <p>Conservation area - concerned by the sustantial harm to the wildlife. As previous comments point out this is a habitat for many animals and the lack of respect for the local community, from developer, who has already started the process without plans having gone through. A large container was pitched up outside of my house with no warning and tree's have already been destroyed.</p> <p>Lastly, no doubt the road will need digging up for this development to take place and gain access to water/electricity. This will impact all residents having access to their homes. There is no other access as you are aware, this is a cul de sac and therefore, as we have experienced when the builders removed trees a few weeks back, we were asked to move our cars and large vehicles were parked up causing disruption and noise.</p> <p>Kind regards</p>
