<p>The field on which the development is proposed is full of natural springs. I am concerned that there is already water running into our garden, which didn't happen before the previous building work in the area, and the water will increase, causing damage to our property.</p> <p>The proposed building work is in a conservation area, the idea being to conserve the area's natural beauty. The building work goes against the spirit of this. It also damages the Golcar Ginnel Trail. We will lose that.</p> <p>There is already congestion on the roads around, particularly Small Lane and Carr Top Road. The building of more houses will impact on the traffic.</p> <p>Getting a doctor's appointment at a local surgery is nigh on impossible. The infrastructure round here does not support the building of more houses.</p>
