<p>I object to the proposed solar farm.</p> <p>This appears to be a wholly inappropriate use of green belt land and would have a significant impact on the wildlife of the area.</p> <p>There are other more appropriate brown field sites within Kirklees where this should be considered, not transforming beautiful farm land into a sea of solar panels.</p> <p>The application does not include a feasibility assessment and I do not believe the land should be reclassified as brown field as this would leave it open to housing development in the future.</p> <p>If the power generation quoted is to be believed (which I do not), there would be excessive power generated which is unable to be stored and would be lost. The size and scale of the farm is simply unnecessary.</p>
