<p>The people of Flockton have had enough of building works. The roads are not fit for purpose already. We need to protect our green belt land not use more. The land will no longer be green belt after the period it has been used for the farm. I strongly disagree and think Flockton is unsuitable for this. It will be an eye sore on the village. Kirklees have already granted far TOO much planning in the area. We NEED a bypass not a solar farm!! The community is never listened to by Kirklees Council it's a disgrace. The solar farm will put the Bypass off and what does our village gain from this???</p>
