| <p>First of all I want to thank Kirklees Council for giving me the opportunity to once again strongly object.</p> <p>As my last objection this land is green belt. As the title says; "green belt" this is what it should always remain!</p> <p>The developers seem keen to emphasise that this won't affect the local wildlife, yet they are building a deer fence around it! Please correct me if I am wrong but aren't deer wildlife? Not to mention the high badger population within the area.</p> <p>We have already heard the warnings broadcast on the national news and radio that next year at the very latest there's going to be a national food shortage so it seems crazy to think we would consume perfectly good farming land to produce a very small amount of electricity.</p> <p>The developers quote that it will provide electricity for 15,000 plus houses.... But is that Kirklees houses?? NO!! It's fed into the national grid! So how is that helping anyone in the local area?</p> <p>I also find it insulting that it's proposed that in 40 years time it will be turned back to green belt! How can they promise that? The people setting these propositions up will be long retired and lots of things can change in that time!!</p> <p>It also seems ridiculous that the company proposing this project isn't even local! what interest of the local population do they have? NONE!</p> <p>We live in such a beautiful part of the country with so many things around us to be proud of please let's keep it that way and let everyone around enjoy our green belt and preserve it for future generations to come!</p> |     |
