<p>Very little change has been made to benefit anyone living or wanting to enjoy this unspoiled area.</p> <p>It also still falls way out of scope for the current permitted allowed MW allowance for a local council to permit.</p> <p>I also like the fact that the local wildlife around this area can move freely as and when it chooses, so if possible could someone explain how building a deer fence around the perimeter to keep the wildlife out is doing anything good for the environment??</p> <p>The current proposal disappoints and breaches regulations on numerous matters as demonstrated above.</p> <p>Please count this as a objection</p>
