---

Dear Mr Hirst,

Further to my original correspondence dated 1 November 2021, copied below, I have reviewed the slightly amended application identified in the attached correspondence dated 14 June 2022. I do not consider any of the very limited proposed variations/documentation to have addressed my concerns/inability to fairly assess the proposal or objections detailed below. I strongly believe that this application should be refused on multiple process/due diligence grounds, over and above the unsuitability of the site for the proposed use/best use of designated agricultural greenfield land.

**Please acknowledge receipt of this objection.**

Kind regards
