Without Prejudice.

Dear Sirs,

Re: 1974 Planning Act-All Sections.

I write in relation to the indexed planning issue and I note your correspondence as per this planning application for the said property at 75, New North Road, Highfield, Huddersfield. HD1 5ND. Please note the district is called HIGHFIELD. I would like to confirm that the 1974 Planning Act-All Sections cannot be Abolished, Repealed or Amended so any so-called Planning Acts after 1974 are Fake and are therefore Null and Void.

I write to clarify that under the 1734 Nock Nock Law this entire planning issue is totally Illegal. The district of Highfield is six times Richer than the district of Edgerton. I and many others have helped to clean up the district of Highfield and nearby districts in recent years to enhance the area of West Huddersfield. There is a widespread problem of Illegal/Immoral and Unethical behavior being expedited in the district of Highfield and nearby areas of Huddersfield. These problems are an absolute disgrace and totally illegal under the 1850 Litter Act-All Sections. A lot of Criminal Offences are being perpetrated by persons unknown who have no connection to the district of Highfield, Huddersfield. This planning application and anything associated with it should be struck off and condemned under the 1850 Prevention of Trespass Act-All Sections. I believe this is the best-case scenario.

I trust this clarifies the matter.

Yours Sincerely,
