Objection to planning application number 2021/49/93689/E

I wish to object to the proposed temporary access road adjacent to the Ravenshall Special Educational Needs School.

I consider the route of the temporary access road a potential danger to the early year's pupils at Ravenshall school. The proposed layout goes within inches of the play areas where the higher needs pupils, some as young as 4 years old use. There is only wire panel fencing between them and potential heavy goods vehicles leaving the site on a tight curve.
The early years classrooms and play areas are located next to the farm track, they will be affected from air pollution and dust from this access road.
Extra vehicles heading past the school entrance will pose a danger to pupils going in and from school.
Why would the developers wish to place the pupils of Ravenshall school health and safety at such risks when they have already submitted plans to construct a site access road at the opposite end of Ravensthorpe road that is closer to first phase of the new housing development, Application number (2016/60/94118/E .
