The proposed plan to install a temporary site access next to Ravenshall School has its issues. The Dewsbury Riverside Delivery Framework document on page 60 has an illustration showing the Primary site access as a staggered T junction with the main road being the existing Forge Lane and the new development access road. Ravensthorpe road and Lees Hall Road become secondary roads with a give way. There is ample room to make the temporary site access through the former public house car park and still retain building for the time being. A temporary car park could be provided on the adjacent vacated allotment site.
