I object to the latest change of plans regarding the temporary/ long term access to the development site.
It is not acceptable that the access road to Ravenshall Special Needs school is to be subjected to endless heavy construction traffic.The small road is in use daily through the week by school users ,parents and many journeys by the schools mini buses.
The school has recently suffered months of noise and choking dust from the construction of the new allotment. Despite assurances that dust and noise would be suppressed, nothing was done.
The original planing application contained a site access to the Western end of Ravensthorpe road. This would have ensured all construction traffic would be kept to the development site not putting vulnerable children at risk and not subjecting local residents to possibly years further heavy construction misery.
The local community benefits nothing from the Dewsbury riverside development. We are having to loose the local mosque and it’s play school,endure years of noisy dirty construction and more traffic on our local roads all to provide a nice quiet place for the more affluent to live.
If new housing developments are to be built , then it’s only fair if they suffer the disruption. Replan your access road.
