Dear Planning Officer,

As a local resident and pensioner I strongly support the planning application for the new LIDL STORE AT sALENDINE NOOK.

I consider this store to be a necessity due to the huge increase in local population following the mass construction of housing in the local area and the existing Sainsburys supermarket on the Salendine Nook shopping centre being the only option for shopping in the area other than travelling to Lindley or into Huddersfield centre to shop.

The car park at the S.N. shopping centre is considerably undersized and not easy to use due to the amount of traffic using the shopping centre

The existing supermarket and businesses within the S.N. shopping centre are under no threat whatsoever from this much needed development that is required to provide much needed development of alternative shopping in the local area.

Best regards,
