Good Morning.

Please see below email regarding 2021/94029

I am a local resident HD33QG and support the LIDL planning application.

The area is over populated as is so a new housing development when Lindley and Salendine Nook doctor surgeries are overwhelmed is inappropriate

The selection of groceries offered at sainsburys are often expensive and not well stocked. More choice in the area would be beneficial and support vulnerable members of our community.

In addition parking is often insufficient at sainsburys salendine nook leading to traffic jams on the roads outside so a further car park should ease congestion at the salendine nook sainsburys junction.

I hope the plan is passed

Kind regards
