Dear Sir/Madam

APPLICATION 2021/94057

I wish to object to this recent application (2021/94057) for a 'haul road', for access to the building site for seven houses, and a further development, by the same applicant, for four holiday pods at the furthest end of this field. This access is most unsuitable for heavy and very dangerous traffic, it being adjoining the entrance to the children's playing field, on a blind bend, adjacent to a listed building, as well as being in the Conservation area – a very dangerous place already!

Coal Pit Lane is used by children going to school, walkers, visitors to the village public house, and is very narrow and in an extremely parlous state. As the applicant has already removed trees/hedgerows along Bank Lane to create a 'passing place' for vehicles using the (already passed plans) for four holiday pods – surely this much wider road would be a more suitable access to both sites?

On safety grounds, please turn this ludicrous 'haul road' down.
