<p>The applicant / developer must Manage the construction of the development at all times so as the development does not impact on local residents. All deliveries, skips, work vehicles must be contained within the site boundary given the site is large enough to accommodate. We would ask that conditions on the application should restrict weekend and Bank holiday working and Kirklees and the applicant must place strict working hours and noise controls on the applicant/developer and monitor and manage this. No deliveries or site traffic / operations should be permitted at anytime before 8 am on a morning and after 5.30pm on an evening.</p>
