3. Description of Proposed Work

Please describe the proposals to alter, extend or demolish the listed building(s):

The proposed work would be to install a small window in the bathroom (Approximately 400mm width by 850mm height to match existing detail with obscure glass). We currently have one small bathroom with no natural ventilation other than a vent fan activated by the light switch. The damp and moisture caused by this issue is having an effect on the upstairs of the house even when trying to have other windows open outside of the bathroom. No amount of having the bedroom windows open counteracts the mould caused by the small bathroom with no window. Although the windows being open upstairs in the summer would not be an issue it's causing issues in the winter as expected with the colder temperatures. This is a becoming a constant battle and looking to the future trying to raise a family in the house would create even more issues. Obviously not wanting to raise children in a mouldy and damp environment despite the constant cleaning to try and combat it. One of the cottages on the row of 6 cottages we live on currently has a bathroom window so it will not change the view of the cottages. The window will be at the back of the house so will not spoil any front view of the cottages, the back is private so will not be seen by the public. The style of the window proposed will be in keeping of the cottages.
