<p>The Traffic on Soothill Lane is at breaking point with a new housing development in progress around upper Soothill lane this will make the area absolutely diabolical at peak times and access from Lady Ann Road horrendous. This plan to add 65 dwellings in this badly accessible area can not be made to happen. Primrose Hill is now a cul de sack with the closing of the crossing. This will cause serious problems during the building process with heavy plant and material delivery blocking the road and after with the added 2 plus cars average of the new dwelling owners. This area should be saved as a safe area for wildlife. There is enough new housing being built in the area as it is and no new infrastructure to accommodate it.</p>
