<p>I am a resident on Lady Ann Road and I strongly object to the proposed erection of 67 dwellings on the land proposed on Lady Ann Road. This is for a multitude of reasons which have all been suggested in responses and objections from neighbours. This more recent application does not change any of these problems. Firstly, the proposed houses would bring about so much traffic to the already congested road which already has cars packed on one side and also being a bus route. It is already very congested on this road leading down to Soothill Lane and would only cause more of a problem.</p> <p>Secondly, development of these proposed houses would not be in keeping with the already existing houses on Lady Ann Road. This would not only drive people away but would also devalue and in turn destabilise the community.</p> <p>The area currently hosts green space which is home to a lot of wildlife. This includes many birds, hedgehogs and after speaking to a local surveyor (who surveyed the area) is also home to bats, all of which are becoming rare in our society. We need to continue to protect these species and Noble Homes should look elsewhere, instead of replacing our ecosystem with bricks. The approval of such an application would be unethical.</p>
