<p>The land is a historic flood plain well documented. The natural wildlife is at risk.the traffic congestion in the soothill area is horrendous.so more homes would cause chaos.doctors schools and dentists are at full capacity.there is a right of way footpath running through the field and a natural spring that runs through too.new homes would not be in keeping with victorian homes.please reject these applications again unless you want housing with subsidence like ours due to flooding.</p>
