The development of these houses would remove vital green space from the community. Numerous protected species would be affected such as construction on this land would ultimately decimate the biodiversity in the area. Additionally, traffic from the added housing will cause further disruption on Soothill Lane, which is already congested far too often. Furthermore, previous proposals have been refused due to potential flood risks, so it would simply make no sense to ignore this hazard, as doing so would be endangering the wellbeing of residents in this area. The proposed land has previously been referred to in the papers as an "oasis of wildlife", and to disrespect the value and enrichment that it brings to residents would be morally unjust at best. Please do not allow this space to be taken from us.
