<p>The addition of a housing development in this area will have a negative impact across quite a few areas:</p> <p>Environment/wildlife - it is currently a green site so inevitably there will be a biodiversity loss.</p> <p>Traffic volumes - Soothill is already bad enough without the addition of 60 - 120 cars (not to mention the disruption during building works)</p> <p>Flooding - the loss of green space will increase the risk of flooding in this and other areas.</p> <p>People's wellbeing - it is well known that green spaces in urban areas are important for people's mental health and wellbeing. Building on this land will destroy the local green space.</p> <p>Local infrastructure - there aren't enough doctors, dentists, schools, etc to support extra people living in the area.</p>
