I have lived in Birkby for many years and used to run a business on Blacker Road Birkby. There are already multiple problems with parking and rubbish being dumped without more apartments to add to the ongoing parking problems. I am a local taxi driver and when I have passengers who need to go to and work or school driving through Birkby is a nightmare.I have had passengers being late as its always busy with traffic. As there are already residential dwellings really close it also affects the businesses that have been there for many years and the neighbours as the roads are already narrow and more apartments will have more vehicles coming up and down. There are also local schools and Mosques young children have to step out into the road to walk as cars are parked on the pavements with no consideration for pedestrians with pushchairs or wheelchairs. These are some of the many problems without more residential dwellings being added
