The proposed building is not in keeping with the surrounding buildings which are all stone, this proposal is all glass, far too modern.

The double height will block the sight line of traffic coming down Cuckoo Lane (a one way narrow street) as well as traffic on Westgate making the area a danger zone for accidents.

The school crossing will become more dangerous as lines of sight will be impaired and more traffic (foot and vehicles) will be entering Cuckoo Lane at bust school closing times.

Car parking in Honley village (not a town as the developers application states numerous times) is already limited and if this application goes ahead car parking specifically for this business needs to be provided.
