<p>I wish to strongly object to this application and I strongly support the 'Save Our Spen' representation. Apart from the usual objections which you have had nearly 1700 times, pollution, congestion etc. etc. my own personal view and experience is about FLOODING which doesn't seem to have been taken seriously enough. In February 2020 my house and some others were flooded on Brookfield View area. I was out of the house for five months waiting for repairs. This flood was from Nann Beck which runs into the River Spen, the beck which runs into Nann Beck comes underneath the chain bar from the fields in Scholes from the very area were this monstrosity could be built. The flooding will get worse when Harron Homes build on Merchant Fields Farm and then with Amazon we will be up to our necks in flood water and yet nothing has been done about it.</p> <p>Amazon does not have a good track record, looking at their other developments HGV drivers have taken over rural villages parking on peoples drives and using gardens as toilets, how can that be acceptable????? We don't need Amazon to destroy our community, there is even a risk of a gas explosion right next to Scholes village. Don't wait until school children are killed, stop this nonsense.</p>
