The FalcoZan range is a neat and simple design of open cycle shelter, ideal for any application. Available in both single and double sided versions, the FalcoZan is a vandal resistant steel cycle shelter with optional side cladding in hardwood slats, corrugated aluzinc sheets or other finishes on application.

The standard 4m wide cycle shelter has a steel fascia integral to the roof section which also has a rainwater collection/outlet.

## Single sided Cycle Shelter

[Start live chat](#)

The FalcoZan-180 is the single sided version of the product range. A base module is 3,980mm wide x 2,495mm deep, with a free head height of 2,100mm. The base module can be added to - to create a cycle shelter as wide as required, by using standard 'add-on' units.

The steelwork and roof are hot dip galvanised as standard with an option to polyester powder coat on top of this substrate if required.
