14/02/2022

15 Low Westwood Lane, Wellhouse Huddersfield HD7 4EW

Erection of single storey extensions and car port (within a conservation area)

Application number 2022/90019 Mr M Littlewood.

To Planning

I wish to apologise as the letter I sent to you opposing the right of way was not dated as I wrote the letter over a number of days. It was posted on the 03/02/2022 which I hold the receipt as proof of postage. I also realised when speaking about the lady who resides at 15 Lowestwood Lane I called her _____ and her surname is _____. It caused me so much stress and feel that I am waiting for a sentence to be passed that I am free to leave my property on a safe right of way or be trapped inside. Soon after Mr Littlewood moved into his property he made a complaint to the council that there was too much traffic on Lowestwood Lane, this was brought about as _____ came to stay at his house and could not sleep for the traffic noise the bedroom _____ occupied was facing the road. On the odd occasion guests have stayed overnight at my house and slept in the bedroom that faces the road and had no problem with traffic causing them loss of sleep. Lowestwood Lane is a rat run used by parents to transport their children to and from Colne Valley High School, at peak periods, it is very busy, but does not cause a problem. When I cross the road from my house to where my car is parked and where I keep my _____ in the boot. (it would cause problems if I parked my car on the roadside outside my house and would interfere with the flow of traffic.) Motorists can see I have _____ and either slow down or stop until I have safely crossed the road which I appreciate their kindness. It appears Mr Littlewood expects everyone to allow him

Low Westwood spoke to Mr Littlewood regarding the pizza oven on the plans Mr Littlewood told him that he was just putting anything on the plan and there would be no pizza oven. _____ told me that the extension between the kitchen and car port was to be made into a downstairs toilet. When my bathroom was moved from its original place to where it stands now, I needed to apply for planning permission as the original bathroom did not accommodate a toilet and in the room it stands now there was room to install one. I still hold these plans. Regarding my right of way, _____ told me he thought a lock put on the proposed new gate was a good idea as this would make it

private, as number 15 Lowestwood Lane will be able to exit the road via their car port, it would only be of use for anyone visiting my house and deliveries of large items, and as I pointed out before the only way accessible for ambulance people to bring a stretcher if needed. does not intend using the right of way which goes through my garden to passing through 2 gates, as he made his own path on his land from the rear of his house and runs parallel to the right of way which gives him access to his land and Lowestwood Lane. I just want to prove why my right of way should be reinstated by sending you the

I do not dwell on this, I dismiss the
and try and live a normal happy life as possible. I receive from time to
time at to try and help keeps my . My
has stopped the sessions at this time as I have been
and puts it down to as I have explained to him regarding the planing
permission and how this will affect me and my life. Neither or Mr Littlewood
are aware that I have opposed the plan regarding my right of way as I have not discussed
this with them.

Yours faithfully
