
About Horizon Care and Education

At the very heart of Horizon Care and Education Group is a caring philosophy, a genuine commitment to making a real difference for young lives.

As an established and strong care and education focused business recognised for its experience and excellent reputation in the care and education sector, Horizon Care and Education strives to provide strategies, support and solutions to some of the most difficult challenges involving children and young people. Working closely with local authorities and professional bodies aiming is to ensure that each and every child and young person is placed in an environment that suits their individual care and educational needs.

Care Homes that feel like home:

Horizon are committed to supporting young people in experiencing the brightest of futures, with our residential services that truly feel like home.

We recognise the diverse range of needs of our young people, and through therapeutic care, inspiring colleagues and providing homes that feel like home, we work tirelessly to ensure we meet the needs of every individual in our safe and nurturing environments.

Our fully trained staff listen, care and support with sincerity, empathy and kindness whilst being trusted to create safe environments for our young people to flourish.

Education that inspires:

We recognise that the issues faced by a person can affect their learning abilities. Education is a key aspect in a child and young person's life and a vital driver for change and future development. We have developed a range of academic and creative studies to challenge and inspire each child. We provide space and opportunity for a rich diversity of educational experience. All are enabled to develop lively, enquiring minds as they gain greater independence and self-belief. Our education values the creation of an ethos that is caring, supportive and collaborative, providing the foundation upon which personalities can grow and skills and abilities find full expression. We promote a culture which is high in expectation, enabling all to achieve their optimum potential.

Our Values:

Horizon Care and Education are well known for supporting learners to secure sound educational outcomes and have the skills and resilience to succeed in life beyond school. Horizon's schools are DfE registered, independent special schools which provide high quality specialist education for pupils from the age of 7 years, who have social, emotional and mental health difficulties. Many pupils will have formal diagnoses and an Education, Health and Care Plan.

Horizon provides personalised, inclusive and stimulating programmes of learning that are delivered by experienced, suitably qualified teams of staff who are passionate about making a difference. At Horizon, they know that education matters. It is crucial to individual development, well-being and improving life chances.

Their bespoke programme, Horizon Education Alternative Learning (HEAL), is designed to provide an effective, interim solution for learners who are out of education. Horizon knows that a significant number of children are missing out on education for a variety of reasons; many beyond their control, including relocation, illness, school refusal or exclusion. HEAL is geared towards enabling children and young people to re-engage in learning, continue with studies while receiving support to return to a more formal school or college setting. The focus of support is personalised, according to learner needs and priorities. For the majority, the focus will be on completion of qualifications, preparation for independence, entry into training or the world of work. Horizon Care and Education is a full member of the National Association of Independent Schools and non-Maintained Special Schools (NASS).
