I would like to object to this development due to it being in a protected conservation area and its impact on the people that live here.

The buildings in Edgerton are unique and represent many different Victorian styles including fine examples of the Gothic Revival. This new development would add to a further defacing of the area by creating yet more unsympathetic additions. These proposed buildings are right next to Banney Royd (Grade 1 listed) and Stoneleigh House (Grade 2 listed). The buildings have nothing to do with the aesthetic or history of this area. Stoneleigh House has been extensively added to including the Mews, extensions to the original house and added garages. The Pavilions is a very large imposing structure. I do not feel we could take any more buildings in this immediate area without completely destroying the reason people want to live here, green space, quiet, the trees and the beautiful Victorian architecture.

This would effect the quality of life for people living in the area, increased traffic, noise, light pollution and lack of privacy.

We have a very high amount of traffic on Bryan Road and Halifax road is extremely busy too.

This will remove green space used by wildlife. There are newts and a wide variety of animals and birds.

These will be luxury not affordable homes. I can't see any details how they will be particularly energy efficient or environmentally conscience.

The design of the buildings is very uninspired and formulaic. At least the Pavilions makes a statement and contrasts with the older buildings.
