<p>I own grazing land immediately adjacent to and on the downhill slope of this planning application. My objections are;</p> <ol style="list-style-type: none">1. The proposed works are completely out of keeping with the area's natural environment.2. I have animals grazing immediately adjacent and downhill of the proposed hot tub works. I am very concerned that waste water and pool chemicals will be released onto my land causing pollution and danger to my animals.3. Any waste and pollution released onto my land has the further potential to enter the Compensation Reservoir located at the bottom of the downhill slope. This would cause wider detriment and danger to wildlife and members of the public who use the area for fishing and recreation.
