Engineering operations and change of use of land to provide parking for two dwellings

152 Penistone Road is one of a pair of Grade II listed dwellings dating to the early 19th century and situated to the side of the busy Penistone Road.

4 new parking spaces are proposed, just outside the historic curtilage of the cottages, with the excavated area faced in dry stone walling. The proposed parking area is accessed via an existing private driveway and is set at a lower level than the road due to the topography.

There is negligible harm to the setting of the listed buildings, and the public benefits of providing safe off-road parking away from a busy main road outweighs this slight harm.

The Conservation and Design Team has no objections to this proposal.
