

Dear Mathias Franklin

I would like to personally object to the 34 dwellings which are being proposed south of Oddfellows Street, Scholes BD19 6NX.

Scholes is a beautiful village which is already being subjected to additional housing at the bottom of Scholes lane, plus the ongoing application for the Amazon warehouse which will add to traffic congestion and chaos.

My worry also is the access to the field on Oddfellows street which will greatly impact the residents.

I am also concerned that if the field is lost to housing, what will happen to the wildlife, not to mention the beauty of the open space which is enjoyed by many people on a daily basis.

My house overlooks the field and I certainly don't want a house being built right at the bottom of my garden or looking straight into my conservatory.

I hope you do take everyone's thoughts into careful consideration.

My address is 11 Spinners Way, Scholes BD19 6NW

Thank you and regards
