| <p>The proposed development would produce a significant amount of traffic to an already crowded area. 34 developments with 2 cars per property is 68 vehicles. Salisbury road one of the main access routes currently has 10 dwellings. This is a hugely disproportionate increase in traffic and potentially dangerous to school children that use the route heavily. It will massively affect the quality of life for all current residents. The green fields off oddfellows street provide much needed conservation space for wildlife. Scholes is supposed to be a village and preserving these spaces is at the heart of the community.</p> | |
