<p>I wish to strongly object on the following grounds please</p> <p>1) Their is a proposed Amazon development with an entrance on Whitechapel road a small distance from the entrance of this development. This Amazon entrance can be used by up to 2500 staff , buses and white vans. and is a busy school route . this would be another obstacle for the children to manage and cross. The highways has already expressed concerns of safety as this is a B road . This begs belief another entrance would be considered so near this one and near the school pavilion.</p> <p>2) There is already a development for over 100 homes on Whitechapel road , and along with near by developments talking the total to nearly 500 new dwellings , is there really a need for more as no new infrasture, to meet this need.</p> <p>3) Their would be 3 developments on this busy road, and the noise and disruption to local residents would add to this in this over developed area.</p>
