DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2022/62/91309/E**
Site Address:	3, Grove House Drive, Clayton West, Huddersfield, HD8 9XB
Description:	Erection of front dormer to lower level roof
Recommending Officer:	Elenya Jackson

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 13-Jun-2022

OFFICER REPORT

Site Description

3, Grove House Drive, Clayton West, Huddersfield, HD8 9XB is a two storey detached dwelling which currently benefits from its own driveway and a private garden.

The site resides off a private road which has gated entrance. There are five dwellings which form part of the street scene.

The area is residential in nature and properties within the immediate are similar in appearance.

Description of Proposal

This application has been received for the construction of a dormer to the principal elevation of the dwelling.

The dormer would have a width of 1.8m, a height of 2.1m and a projection of 4.1m. The proposal would be finished with roof tiles matching the existing dwelling and UPVC dormer cheeks.

Relevant Planning History

2008/91296: ERECTION OF EXTENSION AND ALTERATIONS TO EXISTING GARAGE. Conditional Approval.

Representations

The application was advertised by neighbour letters, which expired on 27/05/2022

No representations were received

Consultation Responses

Denby Dale Parish Council: No objections

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the

Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target, however it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published 20th July 2021, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places

Assessment

The following matters are considered in the assessment below –

1) Principle of development
1) Impact on visual amenity
2) Impact on residential amenity
3) Impact on highway safety
4) Other matters
5) Representations
6) Negotiations
7) Conditions
8) Conclusion

1 – Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extension SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

These issues along with other policy considerations will be addressed below.

2 –Impact on visual amenity:
Key Design Principle 1 of the House Extension & Alteration supplementary planning document (SPD) does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the HESPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The proposal would be visible within the street scene as it relates to the principal elevation of the dwelling. The proposed dormer would feature a pitched roof, the proposal would be set down from the ridge of the existing dwelling and above the eave, it is considered that the scale of the proposal would not dominate the roof space of the existing dwelling.

The use of matching materials would aid the proposals assimilation with the host dwelling.

Having taken the above into account, the proposed extension would not cause any harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in

terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building.

3 – Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light, Key Design Principle 6 on preventing overbearing impact and Key Principle 7 for outdoor space.

The proposal would be situated above the eaves of the existing dwelling and not feature any side facing windows. The dormer would face onto the street scene towards 6 Dearne Croft which resides approximately 39m to the north-east of the site. Therefore, the residential amenity of neighbouring residents would be preserved if the proposal was to receive permission.

4 – Impact on highway safety:

The proposals would marginally intensify the domestic use of the dwelling; however, the proposal would not alter parking allocation which remains sufficient for the site and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extension SPD .

5– Other matters:

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

Bats
The application site lies within the bat alert layer on the Councils GIS System. Nonetheless, the roof and eaves of the original dwelling appear to be well sealed. Even so, as a cautionary measure, a note will be added to the decision notice stating that if bats are found development shall cease and the advice of a licenced bat worker sought. This is to accord with the aims of Chapter 15 of the NPPF.

6 – Representations:
N/A

7 – Negotiations:

No alterations were requested to the application

8 – Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

9 – Conclusion:

This application to erect a dormer to 3, Grove House Drive, Clayton West, Huddersfield, HD8 9XB has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Design SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposed extension is considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **Approve**

Decision Authorisation - Delegated Powers
Application Number: 2022/91309
Officer Recommendation: Approve
Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extension SPD and the aims of the National Planning Policy Framework.

3. The external facing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.
Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extension SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not. If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	**Reference**	**Date Received**
Location Plan	DWG 10 REV:A	19th April 2022
Existing GF Plan	001	14th April 2022
Existing FF Plan	002	14th April 2022
Proposed FF Plan	003	14th April 2022
Existing and Proposed NE AND NW Elevations	004	14th April 2022
Existing and Proposed SW Elevation Section A-A	005	14th April 2022

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

The proposal has not been altered since submission
