It's one of the few green spaces left in Birchenccliffe so I'm dismayed that it will be swallowed up by development which will not have a positive impact on the local area. We will not see any financial benefits or well-being benefits to this development. The surrounding roads are not capable of handling an increase in HGV traffic nor any other increase in traffic flow, the new housing estates surrounding this proposed development site have flooded the narrow roads with extra vehicles. Yew Tree Road is a rat run for traffic joining A629. Any issues with M62 cause queuing traffic along Lindley Moor Road, preventing residents from accessing their homes, as we know there are issues on the M62 daily. There is a recognised Kirklees footpath running alongside this proposed development which has already been affected by the housing development off Crosland Road, what assurances are we given that this footpath will remain accessible? As a local resident I wholeheartedly disagree with the proposed development of this site.
