AUTHORISED OFFICER

Date: 15-Jun-2022

OFFICER RECOMMENDATION

DISCHARGE OF CONDITION A.4 , SCHEDULE 2, PART 1, CLASS A GENERAL PERMITTED DEVELOPMENT ORDER

1. Procedural Matters

Prior notifications for the erection of single storey rear extensions to dwellings are considered against the requirements as set out by the Town and Country Planning (General Permitted Development)(England) Order 2015 (as amended) Schedule 2, Part 1, Class A, condition A.4.

Proposals pursuant to Class A are permitted subject to limitations set out in paragraph A.1 and in the case of Class A.1 (g) subject to the discharge of condition A.4. This proposal relates to development pursuant to Class A where condition A.4 is engaged and for the purposes of this assessment only the limitations for Class A.1 (g) and requirements condition A.4 are considered. Other limitations within Class A are not considered other than where, in the opinion of the Local Planning Authority, the development does not comply with the limitations within Class A of the Order. Ultimately the responsibility to ensure the development is carried out in full accordance with any planning permission rests with the applicant or property owner/occupier.

Limitations for Class A.1(g) Development

Is the site within a Conservation Area, Article 4 or SSI area?	No
Is any part of the proposal clearly outside the curtilage of the dwellinghouse?	No
If the house is detached and from the information submitted, does the extension extend more than 8 metres from the rear of the original dwellinghouse?	N/A
If the house is not detached and from the information submitted, does the extension extend more than 6 metres from the rear of the original dwellinghouse?	No
Does the proposal exceed 4 metres in height?	No
Have permitted development rights been removed from the property?	No

Condition A.4

As part of the notification procedure, the Local Planning Authority notify owners or occupiers of adjacent premises of the proposed development by serving notice and allowing 21 days for objections to be made. The Local Authority shall take into account any representations made as a result of the notice given.

Consultation start date : 04/05/2022

Consultation end date : 25/05/2022

1. Objections

No objections received.

2. Assessment

No requirement to assess as no representations received.

The earliest historic imagery held by the Local Planning Authority showing the property as built is dated 1960 and indicates that the original dwellinghouse benefits from a projection approx. 3.8m by 3.2m on the rear elevation which has side elevations. This original feature of this property has since been removed but can be clearly seen to be part of the dwellinghouse on neighbouring properties. This element shall therefore be considered as part of the original dwellinghouse in the assessment of this application. The proposed extension would extend beyond the side elevation of this original part of the dwellinghouse and would have a width of 9.5 metres. The width of the original dwellinghouse is 9.5 metres based on the submitted plans. As such, the extension would exceed half the width of the original dwellinghouse.

Within Class A, Part 1 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) paragraph (j) states that development is not permitted if “the enlarged part of the dwellinghouse would extend beyond a wall forming a side elevation of the original dwellinghouse and would – (iii) have a width greater than half the width of the original dwellinghouse”.

The proposed extension would extend beyond a wall which forms part of the original side elevation of the dwellinghouse, being the side elevation of the rearward projection, and would have a width greater than half the width of the original dwellinghouse. The proposal therefore fails to meet the criteria of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), Schedule 2, Part 1, Class A paragraph (j).

3. Recommendation
