Subject: Planning Application 2022/91604
Date: 25 May 2022 17:30:50

I have viewed that plans for this property to be changed from a family house to multidwelling three flats. From my understanding planning permission was turned down when proposals were made for construction of five bedsit accommodation. My concerns relate to multiwelling and single male accommodation in the area. We already have problems with . My other concern relates to the construction of the dormer to the rear. This will impinge on my privacy at number and that of my neighbour's at number has already been used for . As being in a conservation area a dormer construction would be out of character.
